

Register of Big Trees in British Columbia

Legend

Recent additions appear in **red**.

Figures in **bold** indicate dimension(s) which represent the maximum recorded for the species.

* indicates estimated dimension - not measured by instrument.

(b) in height column indicates tree has a broken top

Species	Circumference at 1.37 metres 4.5 feet	Height	Crown Spread	Total AFA Point s Wood Volume	Location of Tree/ Nominator/ Date of Last Measurement/ Condition, Date Condition
